HEALTHY SNACKS

■ Pop Weaver Microwave Popcorn

For parents, finding our children a healthy snack that still tastes great can be a bit of a challenge. What if I told you there is finally a popcorn that leaves you feeling guilt-free? I'd like to introduce you to the first-ever microwave popcorn made with Canola oil from Pop Weaver, Walmart's exclusive brand. All three flavors in the Pop Weaver microwave line have been reformulated with Canola oil to help lower bad cholesterol and protect against coronary heart disease, heart attacks and strokes. And, at only 21 cents per full bag popped, no other snack provides this great nutritional value at such a low cost. Visit Popweaver.com.
